DISCOVER YOUR STYLE

Clothing, denim, essentials and more — all in one place.

APP DESCRIPTION

A premium fashion-shopping app for discovering and buying stylish clothing, jeans, tops, dresses, shirts, trousers, socks, footwear, and fashion accessories. Customers can browse curated collections, explore categories, search and filter products, view product photos and details, choose available sizes and colours, add items to a wishlist or cart, apply demo coupons, and complete a clearly labelled demonstration checkout. The storefront should feel polished, modern, trustworthy, and easy to shop, with a premium marketplace experience inspired by the convenience and product-discovery style of Temu and Jumia, while retaining its own original Favorite Collection Sale identity.

VISUAL DIRECTION

Create an original, premium marketplace experience inspired by the clear product discovery, strong merchandising and convenient shopping flow associated with Temu and Jumia. Do not copy either brand's logo, exact layouts, or identity. Use clean editorial hierarchy, generous spacing, crisp product cards, high-quality fashion imagery, clear prices, visible offers and simple navigation.

DESIGN PRINCIPLES

- Premium, mobile-first Material 3 interface
- Consistent typography, spacing, product photography and iconography
- Strong product discovery with search, filters and category shortcuts

- Responsive layouts, accessible contrast and readable prices
- Original branding for Favorite Collection Sale
- Keep demo checkout clearly marked; do not collect real card details
